SPRINGFIELD ARMORY

Edged Weapon Survey Data

by Thomas J. Wiltzius

M-1905-06 Experimental Saber

A total of 157 M-1905-06 Experimental Sabers were produced in three different lengths at the Springfield Armory in 1906 (another 11 sabers without serial numbers had been produced in 1905 and are in the Springfield Armory Museum). Springfield also produced the M-1905/06 Experimental Saber with two points, standards and clipped. The following data reflects the known information about surviving sabers. Additional information is welcome.

Serial Number	Length (inch.)	Point
1	29.5	Clipped
3	32	Standard
6	30	Standard
8	30	Clipped
11	27	Clipped
20	27	Standard
35	30	Standard
36	32	Standard
44	32	Standard
50	32	Standard
52	32	Standard
62	27	Clipped
68	27	Standard
95	27	Standard
105	30	Clipped
113	27	Standard
114	32	Standard
121	30	Standard
127	32	Clipped
132	32	Standard
137	30	Standard
139	32	Standard
145	30	Standard
156	30	Standard
160	30	Standard
